Fall Safety Facts & Tips

Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Eye Injury Prevention Month						
16 	17 Radon is a radioactive gas. Radon is colorless, odorless, tasteless, and chemically inert.	18 The Surgeon General has warned that radon is the second leading cause of lung cancer in the US	19 The EPA and the Surgeon General recommend testing all homes below the 3 rd Floor for radon.	20 Radon levels vary from building to building.	21 "Do it yourself radon test kits" are available at retail outlets and through the mail.	22 The National Safety Council offers half-cost vouchers for radon test kits.
National Radon Action Week						
23 The right equipment can protect your eyes.	24 Always wear effective eye protection.	25 Eye protection devices must be properly maintained.	26 Eye protective devices should allow for air to circulate between the eye and the lens.	27 Scratched and dirty devices reduce vision, cause glare and may contribute to accidents.	28 Eye Protection Works!!	29 
Ask your supervisor to help you select the right eye protection						
30 	31 Teach your children to stop only at homes that are well-lit, never enter a strangers house.	Tell your youngsters not to eat any treat until they return home.	Strips of retro-reflective tape should be used to make children visible.	Masks can obstruct a child's vision. Use facial makeup instead.	Carrying flashlights will help children see better and be seen more clearly.	Watch for children darting out from between parked cars.
Halloween Safety Tips
